Hybrid, On-site, WFH

ABOUT ME

I possess a wide range of abilities that are quite promising. As a web developer, I put a lot of effort into developing elegant solutions rapidly. I am proficient in HTML, CSS, Javascript, Tailwind CSS, Bootstrap, and ReactJS. I also know a little bit about Laravel, Node.js, and MongoDB. I can manage projects on my own and also work well with a team.

EDUCATION

AMA Computer College - Naga Campus

BS in Information Technology

2021 - current

KodeGo - Bootcamp

Full-stack Web Development

April - July 2023

CERTIFICATION

Full-stack Web Development

KodeGo

April - July 2023

I enhanced my frontend skills and gained valuable experience by learning new technologies such as Laravel, Bootstrap, and Node.js. Through my dedication and hard work, I earned recognition as one of the top students and received a Leadership award for my achievements.

EXPERIENCES & PROJECTS

Harmony Organic - Frontend Developer

Link: <https://zizaaa.github.io/HarmonyOrganic/>

Tools used: React Js, Bootstrap

Harmony Organic's main objective was to help local farmers in the Bicol region sell their products, providing them with valuable support. I personally completed this project during the boot camp, and I'm proud to share that it was honored with the "Best in Mini Project 1" award.

Palengke - Full-Stack Developer

Link: <https://palengk-e.vercel.app>

Tools used: MongoDB, Express, React Js, Node Js

PalenkE was designed to bridge the gap between traditional sellers and the modern consumer. It aims to make fresh, organic, and locally grown products more accessible to the community. As a member of the team that built PalenkE, my role was as a Fullstack developer. I was responsible for managing and maintaining the project.
